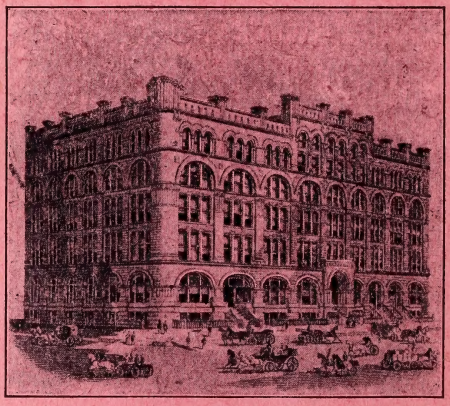
THE NORTHWESTERN MUTUAL LIFE INSURANCE CO.

OF



Milwaukee, Wisconsin

The amount of Insurance paid-for during 1906 was GREATER than any previous year and the increase in business in force was GREATER than that of any other Company in the world.

The amount of Dividends paid in 1906 was $7,366,425, which was GREATER than that ever paid by any Life Insurance Co., regardless of size prior to that time.

It is capable of easy demonstration that the Northwestern is the best Company to insure in.

See The Northwestern's 1907 policy contract with its Dividend Options, Paid-up and Endowment Options, Options of Settlement and the new Automatic Loan feature.

Issues Partnership and Corporation Insurance.

INTRODUCTORY

In placing the Directory of 1907 before the public, I desire to express my sincere appreciation of the loyalty shown to the memory of Mr. Wright by his many friends, and also for the good will and support of the public to his family in carrying on the work which he had so long directed.

I regret that circumstances entirely beyond my control, have delayed the book a little beyond its usual time of issue.

The enumeration for 1907 shows a considerable increase in the number of names in the directory for this year, which, taken with other reliable information, shows a steady, normal growth in the population of our city.
